

Inventory Sheet

Misty Blue Yonder

Bow to Stern

DECK

Anchor Well:

- 66# Bruce style anchor
- 250' chain
- Lofrans windlass with power up and power down foot controls
- brake handle.
- Anchor snubber

Sail Locker:

- Bow thruster mechanics at bottom
- Cruising spinnaker, sheets and turning block, all in turtle
- 40 gallon forward holding tank
- Fender stowage (white ball fender is for stern-to-dock), fender step.

Mast:

- Deck light shining forward
- Courtesy flag halyard, starboard spreader, SJS pennant

Coachroof grabrails:

- Mop
- Boat hook

Cockpit locker, starboard:

- Spare 44# Bruce anchor, chain and rode stowed in plastic boxes.
- Spare lines
- Dinghy pump and repair kit

Cockpit locker, port:

- Box for dock lines, including “easy docker” for heavy side winds
- Buckets with cleaning supplies
- Emergency tiller
- Telescoping deck brush
- Box of deep clean supplies
- Hand bilge pump for dinghy
- 600' spool of floating polypropylene shore line
- Crab ring, line, bait box, and float

Cockpit helm, starboard:

- Leather covered wheel and custom pedestal guard
- Bow thruster control, chart plotter/radar, depth, autopilot
- Icom VHF RAM mike

- Throttle, tachometer, fuel gauge, key start

Cockpit helm lazarette, starboard:

- Cabin heat expansion tank and overflow tank

Cockpit table:

- Two large fold up leaves
- center icebox for sail tie, plastic electronic cover stowage, etc.
- windspeed/wind angle and knotmeter displays at aft end
- 8 cup holders
- 2 stereo speakers

Cockpit helm port:

- Leather covered wheel and custom pedestal guard
- Compass

Cockpit helm lazarette, port:

- Propane well with 2 tanks
- Solenoid valve
- In-line blue gate valve for propane BBQ
- Spare BBQ regulator

Cockpit sole between helms:

- Liferaft stowage area used for excess garbage (caution: avoid entangling in steering gear.)
- Aft hold tank
- Hot water tank

Stern rail, starboard:

- GPS antenna
- Cell phone signal booster antenna
- 2hp Honda outboard on mount
- US flag
- Lifesling

Stern rail, port:

- Propane large cylindrical BBQ
- XM satellite radio antenna

INTERIOR

Snowgoose Stateroom (Forward starboard):

- Hanging locker w/ plastic hangers
- Drawers
- Large radar reflector and storage under mattress

- Cabin heat fan and controls
- 85 gallon water tank under

Bald Eagle Stateroom (Forward port):

- Hanging locker w/ plastic hangers
- Drawers
- Cabinet with shelves
- Long term spares and additional stowage under mattresses
- Cabin heat fan and controls
- Fire extinguisher
- 85 gallon water tank under

Galley:

- Tall cabinet with 4 storage areas including 3 aluminum wire slide out drawers, with anti-heeling stops (please fold down to engage stops before sailing). 1 – silverware (service for 10) 2 – juice container, oven pan and cover 3 – bowls, plastic food storage containers, 4 – salad bowls, pot and pans.
- Double sink with cleaning supplies under, water filter for sink cold water, foot pump for salt or fresh water (selector valve under).
- Slide out three layered drawer with knives and various utensils. Please note: the tall, narrow drawer has an indented pull handle, and a typical Jeanneau push knob to secure it. Two things here: 1 - please don't pull on the push knob. It will come off. Use the indented pull handle instead. 2 – remember to secure the drawer with the push knob before sailing—a nice port tack heel will send the drawer crashing.
- Gimballed two burner stove with oven, 12v refrigerator condenser under.
- Top load large refrigerator
- Top load large freezer. This compartment contains both the engine driven cold plate (engage for about ½ hour daily at electrical panel when above 1500 rpm) and the 12V DC thermostat (point white dot aft for normal operation). Note: for safety, please note that the spring lid supports are designed to collapse when touched. Accidental nudging while sorting through the refrigerator can cause a sore head! To close, please nudge the spring to collapse it rather than pulling down on the lid. Thank you.
- Hi Definition 22” TV with integrated DVD player on swivel mount above freezer.
- Inverter, 12v to 120v, on shelf outboard of freezer; feeds TV.
- Spice rack with spices, top of center island settee back.
- Several over counter storage cabinets for dishes (service for 10) and food.

Forward Head, forward end of main salon

- Jabsco salt water toilet with Y valve, vinegar and vegetable oil on shelves.
- Sink faucet extends for integral shower

Settee, clockwise from island:

- Large storage area under island settee, sump and float switch under storage area.
- Second storage area under forward settee

- Starboard settee has storage above (cabinets), behind seat backs, and below seat cushions (main salon heater fan, engine start battery). Rolled charts and library.
- Starboard aft corner, behind seat back holds maintenance items such as sewing kit, spare filters, oil absorbent pads, WD-40 and similar items.
- Aft settee seat: 3 tool boxes, spare engine oil, spare coolant.
- At port end of aft settee seat, behind cabinet door: water tank selector switches.

Nav Station:

- Under nav table lid: various navigation tools, San Juan Islands chart book, current atlas, etc.
- Controls for cabin heat, AC and DC as outlined in Owners Notes
- Stereo speaker selector switch behind cabinet door to starboard of nav station.
- Emergency gear bag (white nylon mesh) with fog horn, flares, etc. in narrow slot storage under stereo speaker selector cabinet.
- Bin to starboard of nav table: winch handles, Canadian courtesy flag, binoculars, Charter Guest Reference Notebook, stereo binder.
- Nav station seat: cabin heat fan for starboard aft stateroom.
- Under nav table: water pump, bilge pump, screens filters for each.

Aft Head, aft port end of main salon

- electric fresh water toilet with Y valve
- Sink faucet extends for integral shower

Great Blue Heron Stateroom (aft starboard):

- Oil dipstick access through engine access.
- Electronic “brains”, including autopilot fluxgate compass, in hanging locker.
Note: Any metal, especially magnets, in this stateroom may adversely affect the autopilot.
- Hanging locker with plastic hangers.
- Cabinet with shelves
- Stowage under
- Diesel tank under

Wood Duck Stateroom (aft port):

- Hanging locker with plastic hangers
- Cabinet with shelves
- House battery bank under

Base of Companionway:

- Red battery switches (please leave alone)
- Emergency combiner switch in case house bank needed to start engine
- Windlass circuit breaker
- Note: bottom two steps remove to access front of engine, raw water strainer and engine-driven freezer compressor.
