

Puffin Equipment Inventory
Revised 3 January 2016

The equipment inventory is presented in two ways to help make finding things as easy as possible aboard Puffin. The first list is organized by equipment type and the second list is organized by stowage location. Both lists reference stowage locations on deck and down below, and there are diagrams showing the locations referenced in the lists.

If you use any of the equipment during your charter, please ensure that it is returned to the location listed in this inventory so the next charter guest will be able to find it.

If you cannot find any piece of equipment listed in the inventory, please inform San Juan Sailing when you check out at the conclusion of your charter.
